

Obtained a patent for a product scheme in asset management

[Tokyo, Japan, March 31, 2020] Asset Management One Co., Ltd. (“AM-One”) announced that the company acquired the patent filed on August 3, 2018, for the product schemes to manage the “Goldman Sachs Bond/ Global Diversified Fund 2018-07” (“the Fund”) and its following fund series.

The Fund was launched as a product that pursues both (1) to secure the principal in yen at the time of maturity and (2) to obtain returns through a global diversified investment strategy.

The patent AM-One obtained will protect the rights with regard to elaborate product schemes to achieve both investment objectives simultaneously. AM-One reserves the right for the period of 20 years starting from the completion date of this application.

AM-One is committed to developing investment technologies and discovering investment opportunities in order to provide investment services that contribute to customers’ long-term investment.
