Asset Management One's commitment to sustainability has deepened and broadened over the years. In this year's "Sustainability Report", now in its fourth edition, we have concentrated on making the material more accessible for our audience by streamlining the content.

In the main body of the report, we aim to provide a concise overview of our initiatives and to highlight new enhancements that have been implemented this fiscal year. For readers who require more detailed information, we have included additional material in the "Appendix", and on our company website. These can be easily accessed via the links provided within the report and will prove useful for many.

At AM-One we are dedicated to maintaining our commitment to sustainability and are on a mission to become a leading asset management company that contributes to a sustainable society and our clients' future.
